VIA Task Seating - Ergonomic Design, Comfort, Support, and Superior Functionality

Nowhere is VIA's It's more than just a chair™ motto more in play than in our robust roster of Task chairs. Known for our exquisite craftsmanship and passion for delivering a superior product, VIA task seating solutions combine exceptional 'Ergo Movement Architecture™', modularity, and the comfort, quality and reliability you expect from VIA.

Take a moment to reintroduce yourself to the four task seating series available from VIA.

Palmer - Mesh Back starts at \$630, Low Back at \$735 List, and High Back at \$859 List!

The Palmer is a complete seating system that works overtime without complaint. It provides maximum support, comfort and performance. The full line offers high back execu-task functionality, mesh technology with ratchet back capability and task back performance. Customization opportunities abound with the currency of the rectilinear look, yet comfort is inherent – comfort is VIA. Great style, exceptional ergonomics and a new, lower list price combine to make the Palmer series worth another strong look.

Terra

The Terra task series offers controls that include free-floating back movement with a twist and flex. This is a great feature for ergonomics standards programs, but also in active work environments or in highly collaborative environments. Terra is a down-to-earth performer when it comes to ergonomic seating. The power of modularity and customization provide an excellent opportunity to support a wide range of body shapes and sizes.

Riva and RivaAct2 - RivaAct2 starting at \$461 List!

A swooping back design complemented by a full range of control options. The Riva task series from VIA is wildly popular. Now with the addition of Riva-ACT2, encompassing high and mid back mesh and upholstered back, with three different seat sizes at a very affordable price. The modularity of the Riva product family includes 4 arm options, three control choices, seat slide, and a full range of menu driven options.

Brisbane

Available in a wide range of configurations, the Brisbane series also offers free-floating back movement with a twist and flex. Full ergo, and biosync controls allow the Brisbane to be adaptable to anybody and any situation. The styling and modularity, combined with multi-function controls and a variety of arms, make Brisbane a smart choice. Now featuring three back sizes and four seat sizes – Brisbane is a proven work horse for heavy duty task applications and offers comfort, support and ergonomic functionality for users up to 450lbs.

When you're spending eight hours (or more) on the job, don't you want your work chair to be more than just a place to sit? Our Task chairs will keep you supported, comfortable and energized through all your tasks throughout your day to ensure your Health & Wellness @ Work™. VIA understands - It's More than Just a Chair™.
